

Wooler Weekly EYFS Harvest Edition

Vickie showed the children what had happened to our big sunflower now it was Autumn time. We looked at the seeds and took turns at removing them from the flower so that we can plant

Iona brought some oat grain in which had just been harvested and the children played in the tuff tray using small world farm vehicles to transport it around the tray.

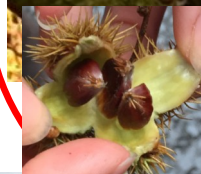

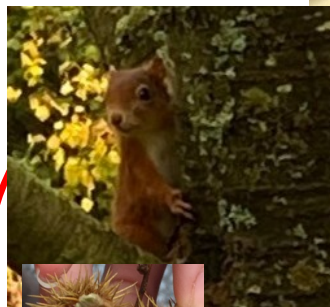

We harvested the pumpkin we grew in our garden then made some soup with it using potatoes from our garden too. We all did a fantastic job of chopping the vegetables.

We then all tasted the soup which was delicious.

We looked at different types of pumpkin. We talked about the similarities and differences and predicted what would be inside!

At the forest the children have looked for signs of Autumn. Lots of children were interested in hedgehogs so they had a go at making one.

Oak Class children went for Autumn walks at home and shared what they had found with the class. Here are some of the picture they shared. Well done everyone!

We brought in conkers in their shells. The children enjoyed looking at them and opening them.

In Oak Class this term we have been reading The Little Red Hen and all of the children have made bread.
